About Aparna Enterprises Ltd.

Aparna Enterprises is a leading building materials company and a group company of The Aparna Group. Founded in 1990, Aparna Enterprises is engaged in manufacturing and trading of a wide range of building material products. The company has a diversified product portfolio which includes Ready Mix Concrete, uPVC profiles, uPVC windows and doors, Floor & Wall tiles, Aluminium window & door systems, Exterior facades, Luxury bath spaces and elegant kitchens and Aggregates. Most of these products are available pan India through an extensive dealer network which constitutes more than 350 vendor partners for different brands.

AEL is associated with many leading brands in the construction sector and several landmark projects for over 30 years. The brand has been associated with many government organizations like DRDO, South Central Railway, PWD, CPWD, MES, AAI to name a few.

AEL is globally renowned for setting benchmarks in technology, research, design, and installation. Today, the company is acknowledged as a leader in providing specifiers, contractors and stakeholders the required support with a range of high-quality products manufactured to the highest standards.

About Vitero Tiles

Vitero is one of the leading tile brands in the country that offers wide range of Wall & Floor tiles. Powered with latest technology from SACMI, KEDA and APPEL, the tiles are manufactured at the most sophisticated 1 Million sq ft manufacturing facility in Peddapuram near Kakinada, Andhra Pradesh. The manufacturing facility produces Double Charged Tiles, Soluble salt tiles, Glazed Vitrified tiles, Digital wall tiles and Full Body Vitrified tiles.

The production facility produces 30,000 sq mt. high quality tiles every day. Vitero tiles manufacturing process uses top quality clay imported from Ukraine, Iran, Malaysia, Turkey, along with Feldspar and Clay processed in its own mines. These mines produce Feldspar and Clay of uniform quality & brighter finish, which makes the tile surface look free of micro holes. Use of Nanotechnology makes Vitero Tiles very glossy and stain resistant and provide durable tiles that look new for years.

Vitero tiles material testing lab uses sophisticated machinery for testing raw materials as well as finished products. The lab uses an XRF Machine, Dilatometer, MOR machine, Cracking Resistance Machine, Surface abrasion Machine, Deep abrasion Machine etc. Vitero tiles manufacturing process follows ISO and BIS standards but maintains the value of end product better than both the standards.
